Projects

GuessBlur

Repo: <https://github.com/DigitalCrafts-HTX-11-2016-Cohort/guessblur>

Demo: www.guessblur.site

Week-long partner project using both front and back end development. GuessBlur is a game where the player must determine whether a given description matches a given blurred image. The project was built using HTML, CSS, jQuery, Python/Flask and PostgreSQL.

King of Hearts Tequila

Website: www.kingofheartstequila.com

Product website built using HTML, CSS/Bootstrap and powered by Wordpress.

Experience

DigitalCrafts

2017 - current

- Support the next group of builders through their 16-week journey
- Continue to build on knowledge as a developer
- Help embed the DC culture into the new group of builders and our new Houston Campus
- Work on projects provided by DC staff

T-Mobile

2014 - 2015

- Provided the best possible customer service and information on technologies while selling cellphones and plans
- Provided IT support when needed
- Trained new employees on company policies while in interim supervisor position.

Arnold Oil Company

2012 - 2014

- Dispatched delivery drivers
- Assisted with PC setup and maintenance
- Created invoices and billed customers
